RESTRICTION RESPONSE

Dear Sir:

20

Responsive to the Office Action dated December 6, 2005, Applicant elects element (1), species 1), Claims 2-4; and element (2), species 1) - 4) with traverse. Should applicant's following remarks not persuade the Examiner that element (2) properly includes species 1) - 4), then Applicant elects element (2), species 1), as mentioned above with traverse.

25

Applicant is of the opinion that element (2) properly includes the items designated by the Examiner as species (1) - (4), i.e. Claims 6-9. Claim 6 is drawn to supports that are made of a photosensitive or non photosensitive material. The element (2) species 1) is generic to those species 2) - 4). To reflect this fact, Applicant has amended Claims 7-9 to indicate that the claims depend from Claim 6.

30

35

Thus, Applicant has elected a first element in which the supports are drawn to a plurality of posts (Claims 2-4) and in which the material that supports is a photosensitive in a second element in which the material that supports is a photosensitive material or a non photosensitive material (Claim 6). Applicant

Application Serial No. 10/815,884

has amended Claims 7-8 such that they are further modifications of the subject matter of Claim 6, Claim 6 being generic.

Should the Examiner deem it helpful, he is encouraged to contact Applicant's attorney, Michael A. Glenn at (650) 474-8400.

Respectfully submitted,

Michael A. Glenn
